

# SWAP EM IF YOU GOT EM! SEED + PLANT SWAP

**Come to Northwest Resistance Against Genetic Engineering's annual spring Seed + Plant Swaps.**

*Free the seed from corporate greed!*

**Gardeners + farmers the world over have freely shared their seeds and plants since agriculture began over 12,000 years ago. In a world of genetic engineering and the corporate patenting of the commons we invite you to continue this age-old tradition by sharing your seeds, and plants with your community.**

**Come meet our special guest: Heather Flores, author of the recently published Food Not Lawns: How to Turn Your Yard into a Garden and Your Neighborhood into a Community.**

**Who: you, gardeners, farmers, seed savers, permaculturists and breeders, et. al.**

**What:  
Seed + plant swap.  
Please bring empty seed packets and plastic bags for plants.**

**Variety  
is Our Life**

**When: 1-4 pm**

**Saturday April 30<sup>th</sup>**

**4205 NE Cleveland  
(between Skidmore  
and Mason streets)**

**Call Mark for more  
info**
